

# Ozone Tank Bubblers For Horticulture

*Improve the health of your plants with fresh ozonated water*

## **Keeps RO Water Fresh**

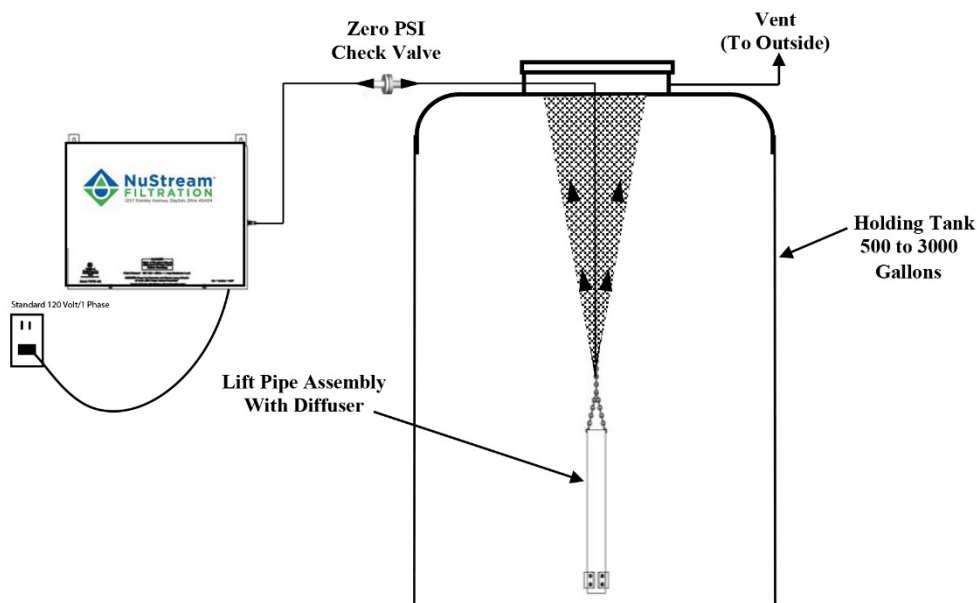

- Continuously aerates the water in your RO holding tank to control bacteria by adding dissolved ozone
- Simply “plug in and drop in”. One ozone bubbler can handle up to 5,000 gallons of water per holding tank

## **Nourishes Healthier Plants without Adding Chemicals**

- Ozone is nature's disinfectant. Plants thrive on the dissolved oxygen that ozone creates.
- No need for chemicals that leave residual behind and can be harmful to plants and the environment.

## **Low Cost / Nearly Maintenance Free**

- Simply replace the UV Ozone tube assembly once a year.

Ozone Bubbler, NuStream Model 145000
